Tech Illustrator and TiAuthor 14.0.4 Released

ENHANCEMENTS INCREASE EFFICIENCY AND PROVIDE GREATER FLEXIBILITY FOR AUTO-TROL CUSTOMERS

Westminster, CO—December 1, 2008—Auto-trol Technology Corporation, a leading provider of technical illustration software solutions and services, today announced the availability of Tech Illustrator and TiAuthor release 14.0.4. This release makes it possible for technical illustration professionals to accomplish tasks with greater efficiency. Of particular importance, enhanced selection processes reduce the time required to locate data.

“Auto-trol’s powerful technical illustration products have a long history of success with illustrators worldwide,” said Danny Stroud, Managing Director at Auto-trol. “The improvements throughout the products introduced in this release make them even easier to use. Without a doubt, our technical illustration solutions continue to provide increased productivity and improved ROI to the entire illustrator community.”

The following enhancements are incorporated into the new release of Tech Illustrator as well as TiAuthor:

- **Select By Attributes.** This enhancement makes it easier for technical illustrators to locate information by allowing them to select by Line Font Name and Line Weight.
- **Support for SVG File Format.** Graphics export to SVG file format is now available. Users can refer to the Release Notes to learn more about this enhancement, including conversion options for the SVG file format.
- **Support for RGB Color Levels.** In addition to percentage levels, RGB color levels are now supported in the color mixer dialogs. This empowers technical illustrators with greater flexibility for working with color.

In addition to these enhancements, Tech Illustrator now features an alignment toolbar that supports seven options for aligning objects.

“In this release, we were able to add many productivity-enhancing tools for our customers, including selection by line font name, object alignment, and the highly anticipated SVG export,” said Raghu Kalavacherla, Tech Illustrator R&D Manager at Auto-trol.

Release 14.0.4 for Tech Illustrator and TiAuthor makes it easier for technical illustrators to manage tasks and deliver world-class illustrations for any industry.
