

TRN-K-ADM KONFIG Administration Training

This course teaches students how to administer and support the KONFIG environment.

Approximate course length: 2 days

Who should attend:

- Application administrators
- Application implementers

This course teaches students how to:

- Set up KONFIG including hosts, vaults, roles, and users
- Create and manage classes
- Setup security
- Configure KONFIG for use with viewers and editors
- Perform common housekeeping tasks, such as archiving and restoring data and working with reports, logs and keywords

This course does *not* teach students how to install the operating system, Oracle database, KONFIG application, or hardware and software components needed to run the application.

Prerequisites:

- KONFIG Fundamentals
- If training is to be conducted at a customer site, customer must complete a Conditions for On-Site Training form.
